

NOTICE TO RESIDENTS

Storm Sewer Maintenance Work

The Village of Carleton will be conducting a storm sewer cleaning and television investigation within your neighborhood within the next 2-3 business days of receiving this notice. The purpose of this program is to assess the existing condition of the storm sewers to develop a capital improvement program for future rehabilitation and/or replacement of storm sewers. Through a selective bidding process, the Village of Carleton has awarded Pipetek Infrastructure Services of Plymouth, Michigan the contract to complete this program. To complete this work, entry must be made through manholes, many of which are located within rear yards. We request that you provide reasonable access for Pipetek Infrastructure Services and the Village's engineering consultant personnel, Hennessey Engineers, to access manholes that are within streets or rear yards and avoid parking near manholes to allow the Contractor to set up equipment and efficiently perform the necessary work. **Working hours will be from 7:00am to 7:00pm Monday through Friday.**

Your cooperation during this work is appreciated. Questions should be directed to the Village's engineering consultant, Hennessey Engineers at (734) 759-1600 between the hours of 8:00am and 4:30pm.

Sincerely,

**VILLAGE OF CARLETON and
HENNESSEY ENGINEERS, INC.**
